TECHNICAL SKILLS

- **Languages:** Python, C++, C, JavaScript
- **Core Concepts:** Data Structures & Algorithms, OOPs, Operating Systems
- **Domains:** Data Science, Machine Learning, Deep Learning, Cloud Computing, AI, Web Development
- **Tools & Libraries:** Pandas, NumPy, Scikit-Learn, Matplotlib, VS Code, Git/GitHub, Vapi, n8n, Oracle Cloud, Docker
- **Soft Skills:** Problem Solving, Team Leadership, Adaptability

PROJECTS

AI Receptionist

Jan 2026

Tech Stack: Vapi, n8n, Automation Workflows, LLM

- Developed an intelligent voice receptionist capable of handling real-time appointment booking, searching, and rescheduling.
- Integrated automated workflows to send confirmation details via Email and WhatsApp immediately after booking.
- Configured the system to provide precise appointment location and timing details to users post-confirmation.

Medical Chatbot

Feb 2024

Tech Stack: Python, NLP, Basic Neural Networks

- Designed an AI-based health assistant to answer common medical queries using Python.
- Used Natural Language Processing (NLP) to tokenize and predict responses based on user input patterns.
- Focused on user-friendly interaction to provide quick healthcare information.

Data Science Prediction Models

March 2022

Tech Stack: Python, Scikit-Learn, Pandas

- Developed multiple predictive models including Wine Quality Prediction and Waiter Tip Prediction.
- Performed data cleaning, handling missing values, and Exploratory Data Analysis (EDA).
- Achieved high accuracy on test datasets using Regression and Classification algorithms.

CERTIFICATIONS & ACHIEVEMENTS

- **Finalist at OpenAI Academy x NxtWave Buildathon.**
- **Certification:** Python for Data Science – Udemy (2025).
- **Certification:** Artificial Intelligence Course – Simplilearn & LinkedIn Learning (June 2025).
- Solved **75+** problems on LeetCode regarding Data Structures and Algorithms.
- Participant, TENET Hack 25 & Innerv X (Army Institute of Technology).

EDUCATION

P.E.S. Modern College of Engineering

Pune, MH

B.Tech. in Artificial Intelligence and Data Science

Expected July 2028

Current Year: Second Year (S.Y B.Tech)

Key Coursework: Data Structures (DSA), Object-Oriented Programming (OOP), Operating System (OS).
